

Data Center Relocation Project

WEEKLY MEETINGS

The Data Center Relocation Project Team conducts weekly meetings in an effort to create more opportunities for Public Sector customers to discuss any move-related issues specific to their agency. Two days prior to each meeting, the project team will contact everyone who registered to identify agenda topics for discussion at the meeting. Registrants can also send agenda topics to the Project's single point of contact, David Rial, using the contact information found at the meeting registration links below. These meetings are intended for small groups in an informal setting, allowing customers to ask specific questions and receive project updates that directly relate to their agency.
